General Comment:

Alhamdulillah, this camp was a success. This was the impression of organizers.

The same impression was found by the participants as reflected in the above questionnaire result.

It was one of the best FIMA camps in spite of some difficulties that we have encountered.

The above questionnaire was one question of more than 30 questions in our comprehensive evaluation of the camp that was distributed to the participants at the end of the event.

A full and detailed report will follow after completing the data analysis.

Prepared with best regards by:

Dr. Atallah Al-Ruhaily
