Message From the President

The turmoil in Libya, Yemen and Bahrain is far from being over, yet a new situation in Syria is emerging to be serious. The government's crackdown on the opposition and those who are dreaming of democracy in Syria has started a new wave of refugees fleeing to the neighboring Turkey. Many have lost their lives and others are afraid of getting shot by the government forces. The Turkish camps are flooding with those who sustained injuries in Syria. Those with resources are going to the hospitals but a large number of injured are at the mercy of Turkish government and local NGO's. Our member organizations and affiliates, especially Hayat Foundation and D.W.W. have a new challenge to

8th Umrah Camp starts in Makkah, Saudi Arabia

8th Umrah Program for Medical Students has started from July 9th and will conclude on Thursday, July 14th, 2011. It has been organized by Islamic Medical Association of Kingdom of Saudi Arabia (IMAKSA) / World Assembly of Muslim youth (WAMY) in collaboration with Federation of Islamic Medical Associations and its members. A detailed pictorial report will be published in next the issue of FIMA e-newsletter.

Contd from page 1, 28th FIMA Council Meeting and IIMA Scientific Convention

charges for delegates will be US \$ 100 per day including hotel accommodation, meals (with coffee and tea breaks) during the council and convention days, local transport and sight seeing programs. The prospective speakers are also requested to approach the IIMA convention secretariat for arrangements and publication of their abstracts and send advance copy of their power point presentation via email. The committee responsible for sight seeing and social program has also requested the IMAs to send the exact number of delegates so that bookings are made in time, as it will be a peak tourist season in Indonesia where a large number of visitors are attracted. Remaining President Message

face. FIMA member organizations are standing by to act when needed.

The Libyan situation is still not under full control. As the rebels are being pushed out to Benghazi, the need of medical help is becoming a bigger necessity. Local doctors and nurses have been force to desert the hospital, complicating the situation further. Arab Medical Union has been very proactive being in Egypt and have done tremendous job during Libyan crisis. However, the coordination and cooperation with other members who are willing to help has been somewhat slow. Our Executive Director, Dr. AlyMishal travelled to Egypt and had a very fruitful meeting in Cairo with AMU and IMA Egypt leadership. New spirit of working together has now emerged and we are hoping that FIMA will be able to make some difference through AMU and IMA of Egypt, getting together with Doctor's World Wide and IMANA. If not in Benghazi, the hospital could be set up at the Libya/Egypt border. The number of complex injuries has escalated and relief projects require more funds. We are seeking monetary help from the member organizations.

On the peaceful front, FIMA SaveVision continues to reach out to Africa. Eye camps in Mali, Niger and Nigeria are on schedule. FIMA SaveSmile team returned to Sudan earlier this year for a successful cleft lip camp and have already planning to return there next year along with the FIMA SaveDignity team. DWW and Hayat plastic surgeon did a marathon of cleft lip/palate surgeries in Palestine and other Middle East countries.

FIMA SAC is very busy finalizing the Umraprogram for medical students to be held on July 9-14, 2011. IMA of Kingdom of Saudi Arabia (IMAKSA) and World Assembly of Muslim Youth (WAMY) sponsor this eighth annual event. This is a great spiritual and informative activity, designed for the children of IMA's of the world and is an invaluable networking opportunity. Umra programs and student/resident camps will also create leaders of tomorrow.

Hope to see you all in Jakarta in September, insha'Allah.

Dr Parvaiz Malik,
President FIMA
