SOYDA (SOMALI YOUNG DOCTORS ASSOCIATION)

SOYDA (Somali young doctors association) an associate member of FIMA is actively providing medical and humanitarian aid and cover to the drought and famine hit corridors and refugees settled in these areas.

The situation is grave and is worsening with every passing year.

However there has been a significant support offered by the young doctors especially in the areas of curative and preventive health, nutrition and WASH projects. The need is huge and SOYDA calls for more support in order to avert any further deterioration of the crisis.
