VENUE:

Creative Jet Beach Resort, Al-Ain – Al-Sukhna, Egypt.

(Located on the Red Sea, approximately 20 km to Suez and 100 km to Cairo).

THEME:

“Change Triad for Health Professionals”

Change is an everlasting human phenomenon. However, the change can be towards positive or negative direction; active or passive; slow or fast; well planned and balanced or haphazard and astray.

Any combination of these conditions can result in very complex consequences. It is our responsibility to choose the change we prefer: direction, magnitude, rate and method.

It is our sole responsibility to change ourselves positively. The Divine law entails that change start from the people's will and actions. Allah's intervention comes through human efforts. This is the law of change that we are ordained to observe. This concept has been pointed out very clearly in two verses of the Noble Quran:

- “That is because Allah would not change a favor which He had bestowed upon a people until they change what is within themselves. And indeed, Allah is Hearing and Knowing”. (Al-Anfal: 53)
- “Indeed, Allah will not change the condition of a people until they change what is in themselves”. (Ar-Ra'd: 11).

Based on this principle and concept, the FIMA students affair council has been continuously absorbed in activities that focus on youth development in all aspects; particularly those features pertaining to health profession and more importantly those pertaining to Islam, whose moderate teachings aim to raise its people to be models for and witnesses over all human beings.

“And thus we have made you a just community that you will be witnesses over the people and the Messenger will be a witness over you”. (Al-Baqarah: 143).

Hence, the theme of this 12th FIMA International CAMP for MEDICAL STUDENTS focuses on the constructive change that should be implemented to develop the personality of medical

students and young doctors; in the three main dimensions; namely: the **Mind**, the **Body** and the **Spirit**. In order for this triad change to be effective and optimal, it needs to be complete, integrated, balanced, scientific and religious.

In order to fulfill this objective, we have invited expert trainers and speakers who have been involved in handling youth development and care.

We hope this gathering and activity will be very instrumental in life changes for the sake of our students, their communities, countries and the world.
