Press Release

19 January 2010

On the first anniversary of the war on Gaza, **PIMA** is pleased to announce that a new state of art heart –lung (**Cardiac bypass**) machine has been installed in **Al-Shifa hospital in Gaza**. With the support and generosity of many people, **PIMA** managed to raise the necessary fund to purchase, deliver and install the machine. We are therefore delighted to hear that open heart surgery has been resumed after a long interruption.

We at **PIMA**, hope that this will put an end to the misery of many patients who until recently had to travel abroad to have heart surgery.

The **Board of PIMA Directors** would like to seize this opportunity to congratulate and thank all friends who donated towards the cost of the machine or participated in any shape or form to make this possible. Our special and sincere thanks go to **Human Appeal International**.

PIMA will continue to do its best to provide whatever possible in healthcare assistance towards alleviating the suffering of the patients in Gaza in particular and the Palestinian People in general who are deprived of their basic healthcare.

Dr Ahmed Almari
Chairman of the Board of Directors
