MESSAGE FROM THE PRESIDENT

Dear Members of the FIMA Family,

Esteemed Sisters and Brothers,

Assalamu Alaikum

It is with much sadness and grief that the FIMA fraternity learnt of the demise of our beloved brother, Al-Marhum Dr Abdul Hamid Qudah on the 29 September 2021.

Continued on Page 15

38th FIMA Council Meeting to be held on December 20-24th 2021, under the auspices of YARSI University, Indonesia

The 38th FIMA Council meeting was scheduled to be held in Indonesia, but due to the ongoing COVID 19 pandemic continuity and re-surfacing of newer strains and emergence of new waves, the meeting was switched over to a hybrid meeting with main sessions to be held online/on zoom facility. The meeting will be held from December 20-24th 2021. The arrangements will be made by IMANI in consultation with YARSI University, Jakarta, Indonesia.

The pre-council EXCO meeting will be held on 20th December, 2021. Prof. Dr. Ihsan Karaman, President of FIMA will preside over the meeting. The 38th FIMA council meeting will be held on 21-22nd December. All the FIMA office bearers and delegates from 50 IMAs and associate members will participate online. The report of FIMA EXCO, executive director's report, treasurer's report, Islamic Hospital, consortium, CIMCO, FIMA Save-vision and other projects will be presented. The reports of individual IMAs will also be presented in the reports session.

IHC webinar will be held as a parallel session on 21st December from 9.00-12.00 and will be organized by Dr. Ishak Masud in consultation with IMANI and YARSI University. The consortium of Islamic medical colleges will hold its annual meeting on 22nd December. The opening ceremony of FIMA scientific meeting and FIMA lifetime achievement award will be held on 23rd December and the scientific meeting will be concluded in the afternoon of Friday, 24th December, 2021.

Date/Time	Monday, 20 Dec	Tuesday, 21 Dec	Wednesday, 22 Dec	Thursday, 23 Dec	Friday, 24 Dec
09.00-16.00		09.00 – 12.00 IHC	09.00 – 12.00 CIMCO	Opening ceremony + Life Time achievement award FIMA Scientific Meeting	FIMA Scientific Meeting

SCIENTIFIC MEETING IN CONJUNCTION WITH 40TH FIMA ANNIVERSARY INDONESIA, ON DECEMBER 23-24, 2020

Theme:

“Integrated approaches of Pandemic: lesson to learn from Covid-19”

About:

The Federation of Islamic Medical Associations (FIMA) is a registered body of 23 IMAs and 30 associate members worldwide, representing about 50,000 Muslim medical and health professionals. The mission of FIMA is to provide a platform for Muslim physicians worldwide in the areas of medical education and ethics, student camps, and humanitarian and medical relief. It is a not-for-profit, non-political and non-governmental organization.

Scientific Meeting is a program held by FIMA every year. SM can carry out Islamic medical activities, including health, education, and research, through cooperation and coordination among member organizations. The FIMA organization is also a place for exchanging medical information and technical expertise between organization members. In addition, SM is expected to produce policy formulations that can be input for stakeholders in the health sector of each FIMA member.

Aim and Objectives:

1. Review and discuss the covid-19 pandemic and its impact on the field of Higher Education, especially Medical Education
2. Review and update the efforts that countries have made in dealing with COVID-19
3. To discuss appropriate programs in dealing with the

COVID-19 pandemic by considering the availability of resources and policies of each country.

4. Provide recommendations for policy-making in program planning related to the field of Higher Education and the broader handling of Covid-19 both at national and international levels

Venue and Dates:

- Virtual by Zoom
- December 23-24, 2020
- Host: YARSI University

Scientific Meeting Programs:

Day 1 (December 23, 2021)

Opening Keynote Speaker: Ir. Budi Gunadi Sadikin, CHFC, CLU. (Minister of Health of the Republic of Indonesia)

a. Keynote speaker 1: Dr. Ihsan Karaman (FIMA President). FIMA Lesson Learnt from Pandemic Covid to Future FIMA Roles

b. Plenary speaker 1.

1) Letnan Jenderal TNI Ganip Warsito, S.E., M.M, Head of the National Disaster Management Agency (BNPB). The strategy of Handling Covid-19 in Indonesia.

2) Prof. Dr. Tjandra Yoga Aditama, Sp.P(K), MARS, DTM&H, DTCE, FISR, Director of the Graduate School, Universitas YARSI. International Health Regulation and Covid 19

3) Dr. M. Adib Khumaidi, Sp.OT, Chairman of the Executive Board of the Indonesian Doctors Association. Challenges of the

Doctor's Profession during a Pandemic

4) Dr. Ede Surya Darmawan, SKM, MDM, Chairman of the Indonesian Association of Public Health Experts. Harnessing Pandemic Response and Essential Public Health Program

c. Oral presentations

Day 2 (December 24, 2021)

a. Keynote speaker 2 (Prof. Ir. Nizam, M.Sc, Ph.D., Director General of Higher Education). Higher Education Learning Paradigm in the New Normal Era

b. Plenary speaker 2 :

1) Dr. Parvaiz Malik (FIMA Executive Director). Challenges of Islamic medical education in the world and innovation during Covid-19

2) Prof. Dr. Fasli Jalal, Ph.D (Rector, Universitas YARSI). Challenges and Opportunities provided by Covid-19 Response in Medical Education

3) Prof. Dr. Arif Satria, SP, MSi. (Rector, IPB University). Challenges of Higher Education in the Time of the COVID-19 Pandemic

4) Prof. Dr. H. Budi Santoso, dr., Sp.OG (K), (Dean, Faculty of Medicine, Airlangga University). The Challenge of Maintaining Academic Reputation in Medical Education in Era Covid-19

c. Oral presentations

Participants:

Participants in this Scientific Meeting include policymakers, implementers of Covid-19 handling programs, practitioners of medical and health workers, Islamic medical students and other health students, academics and researchers in medicine and health, and community development.

What Participants Receive:

- E-abstract (a collection of all research abstracts presented orally by the participants of the Scientific

Meeting). This process is provided on Day-1 of the conference for each participant

- e-Proceedings (collection of research abstracts and full papers of SM participants who wish to publish full papers). The electronic processor is published online after the conference is over.

- Certificate of participation as an oral presentation and participant.

- Selected scientific articles will be

included in the list of accredited national journal articles and international journals.

FIMA LIFESAVERS

It was a huge success and was commemorated in more than ten

countries and dozens of sessions were held, focusing on provision

of live saving ALT support for common citizens.

Al-Marhum Dr Abdul Hamad Qudah (RA) (1946 -2021)

It is with much sadness and grief that the FIMA fraternity learnt of the demise of our beloved brother, Al-Marhum Dr Abdul Hamid Qudah on the 29 September 2021.

He was one of the pioneers of FIMA's HIV/STD project since 2005. He initiated the Train the Trainers course which was aimed towards raising public awareness especially among the youths about HIV/AIDS and Sexually Transmitted Diseases (STD). He pivoted his strategy of the prevention of HIV/STD on a model of teaching and training with the underpinnings of educational, moral and spiritual values.

He travelled widely to share his ideas and FIMA's global project on Protecting The Youth Against HIV/STD. It was his HIV/STD program in Tanzania in 2012 which encouraged them to join the FIMA family.

Al-Marhum Dr Abdul Hamid obtained his PhD in microbiology from the United Kingdom in 1982.

He was actively involved in the management of the Islamic Hospital, Amman Jordan. His passion for health education, among others was also channeled through the Al-Afaf Charity Society in Amman, Jordan.

O Allah! We bear witness that our beloved was truly a Murabbi who devoted his life for Your Noble cause.

O Allah! Grant him Your highest ranks amongst the Syuhada and Solihin in Jannatul Firdaus

Prof. Dr. Ihsan Karaman
President FIMA

Dato' Dr. Musa Mohd Nordin
Chairman FIMA
Advisory Council

AIMA conducts Lifesavers program nationwide

Brisbane, QLD.

Dr Muhammad Ashraf

Australian Islamic Medical Association (AIMA) conducted Lifesavers programs at Mosques and Islamic centres across different Australian states and territories, both physical where possible and virtual in states with COVID-19 lockdown.

AIMA aims to run these lifesavers programs in every Masjid and Islamic Centre across Australian States and Territories.

The lifesavers program was started in the UK by British Islamic Medical Association (BIMA) in 2014 as the 'BLS Mosque Project', teaching life-saving skills in three Mosques in London.

The project has expanded each consecutive year through the immense efforts of the team, in 2019, over 840 volunteers came together to teach BLS to over 4000 members of the public in 114 Mosques nationwide.

Lifesavers is a unique project which aims to unite healthcare professionals, inspire one another & serve their local communities through teaching essential life-saving skills in Mosques around the World!

Lifesaver program was so successful that it was co-opted by the Federation of Islamic medical association (FIMA), and now it runs across all the continents in multiple countries.

This project led to increased attendance of both Muslim men and women to the mosques, including some mosques opening up their doors to Muslim women worshippers.

Details of other activities conducted by the Australian Islamic Medical Association is available on the website: www.aimamed.com.au

Muhammad Ashraf is a general surgeon in regional Queensland and General Secretary of Australian Islamic Medical association

On Saturday, 25 September 2021, AIMA conducted a Lifesavers program in Queensland (Brisbane, Mackay and Townsville) Adelaide, South Australia and on Saturday 2 October 2021, in Perth Western Australia.

Lifesaving skills such as hands-on experience with cardiopulmonary resuscitation (CPR), management of choking, recovery position and use of Automated Electrical Defibrillator(AED) were taught.

Between 15 to 40 community members, including men, women, and children, attended this program at each site. We had excellent feedback from the attendees and a suggestion to conduct these programs regularly.

AIMA ACT team (Canberra) refused to bow down to COVID restrictions, conducting an online lifesavers program, where 30 people attended this online session.

This tells us that "where there is a will, there is a way."

Once COVID-19 restrictions are lifted,

Adelaide, SA.

Perth, WA.

Mackay, QLD.

STAY AHEAD OF CERVICAL CANCER NO EXCUSES - DON'T DELAY

MYTH #1: I HAVE NO FAMILY HISTORY OF CERVICAL CANCER, SO I DON'T NEED A SMEAR TEST.

The majority of people with cervical cancer have no family history. It usually develops following infection with a virus, HPV. You still need a smear test.

MYTH #2: SMEAR TESTS ARE ONLY FOR PEOPLE WITH SYMPTOMS.

Anyone with symptoms needs URGENT review with their GP. A smear test detects pre-cancerous changes well BEFORE symptoms develop.

MYTH #3: I DON'T NEED A SMEAR TEST, AS I'VE HAD AN INTERNAL EXAMINATION BEFORE.

During a smear test, a sample of cells is taken from the neck of the womb (cervix) and tested for HPV virus infection or other abnormalities. These changes cannot be seen or felt on examination. You still need a smear test.

BOOK YOUR CERVICAL SMEAR TEST AT YOUR GP SURGERY TODAY.

**BOOK A
SMEAR TEST TODAY**

WHY DO I NEED A SMEAR TEST?

In the UK, 2 women die of cervical cancer every day. A simple smear test can detect signs of HPV virus infection and abnormal cells BEFORE they transform into cancer. Prevention is the best protection!

WHAT IS THE SMEAR TEST?

A small plastic device is inserted to help the nurse or doctor see the cervix. A sample of cells is taken with a small brush. It does not hurt and often takes less than 5 minutes! You can request to have a female nurse/doctor.

WHEN DO I NEED TO GET THE SMEAR TEST?

If you are aged 25-49,
you need one test every 3 years.

If you are aged 50-64,
you need one test every 5 years.

99.8% OF CERVICAL CANCER CASES ARE PREVENTABLE.

Don't delay.
Ring your GP practice
to book your smear
test today.

The 4th MUNAS OF IMANI (10 October 2021)

After serving the term for 5 years, IMANI (Islamic Medical Association and Network of Indonesia), a member of Indonesia IMA (IIMA) held their 4th MUNAS (Musyawarah Nasional), in conjunction with the 19th Anniversary of the organization. The agenda of the 5 yearly MUNAS are activity and financial

report, constitution review, activity planning and appointment of new exco.

This time the MUNAS was held fully online, on Sunday 10th October 2021. The MUNAS was attended by nearly 80 central and chapter excomembers from Aceh in the western part to Papua in the

eastern part of Indonesia. The opening of the MUNAS was graced by recorded speech of FIMA President Prof Dr Ihsan Karaman, followed by live speech of FIMA Secretary General Prof Dr Abdul Rashid Abdul Rahman. A keynote speech was delivered by the representative from the Ministry of Health addressing the

IMANI PROKAMI

3. National Prayers for Healthcare Workers

4. Seminar on Health Hoaxes and Pseudoscience Controversy on Social Media

5. Seminar on Building Great Healthcare Provider

IMANI has conducted numerous seminars, workshop and training on the topics related to contemporary health issues and its relation to Islamic perspectives, promotion of healthy lifestyles, addressing health issues with evidence-based facts, healthcare workers competence and skill enhancement. IMANI is also active in raising public awareness through social media, and direct engagement with the public through state chapters and youth chapter. IMANI has a regular health column in Hadila magazine since 2016. To date, IMANI has already published seven books on popular health, in which three books were translated into foreign language:

1. Potpourri on Islamic Medicine

2. Immunization Controversies: An Anthology by Medical and Shariah Experts

3. Immunisation Controversies: What you Really need to Know (English)

4. Immunisation Controversies: What you Really need to Know (Thai)

5. Immunisation Controversies: What you Really need to Know (Malay)

6. Islam and Dental Health

7. Prophetic Medicine: Shariah and Medical View

IMANI has several agencies in private and social area, with focused specialization, namely:

1. Imani Health Intercorporate, the business wing

• Imani Hospital; hospital consultant and management operator

• Imani Primary Care; primary care consultant and management operator

• Pratama Bersama Farmasi; pharmaceutical wholesaler

2. Imani Care, provides training and relief activities in disaster areas

3. Green Crescent Indonesia, provides therapies and training to tackle addiction issues

The new office bearer will focus on elevating the positioning of the organization at national level, upgrading competence and skill for its members, and continue raising public awareness on evidence-based medicine. May Allah ease all our affairs and put barakah in all our undertakings.

Teaser video on 4th MUNAS of IMANI can be downloaded here:

https://drive.google.com/file/d/1HhELxy_0tEq2r5wD8H-GPGw2nqA924ibO/view?usp=sharing

The infographic features the IMANI logo at the top left, with the text 'Islamic Medical Association and Network of Indonesia' and 'Perhimpunan Profesional Kesehatan Muslim Indonesia'. A central green banner reads 'Public Awareness'. Below this, a blue box lists activities: TV Appearance, Radio Talk Show, Offline Seminar, Online Seminar, Book Publication, Magazine Columnist, and Social Media Engagement. To the right, a stack of 'Hadila' magazines is shown, with a blue arrow pointing from the 'Public Awareness' banner to them. Below the magazine stack, a row of book covers is displayed with their respective languages and years: 'Bunga Rampai Kesehatan Islam' (Bahasa Indonesia, 2013), 'Kontroversi Imunisasi' (Bahasa Indonesia, 2014), 'Immunisation Controversies' (English, 2015), 'Islam dan Kesehatan Gigi' (Bahasa Indonesia, 2016), 'Thibbun Nabawi' (Bahasa Indonesia, 2020), 'Kontroversi Vaksinasi' (Bahasa Melayu, 2017), and 'Islam dan Kesehatan Gigi' (Bahasa Indonesia, 2018).

REMAINING MESSAGE OF THE PRESIDENT

He was one of the pioneers of FIMA's HIV/STD project since 2005. He initiated the Train the Trainers course which was aimed towards raising public awareness especially among the youths about HIV/AIDS and Sexually Transmitted Diseases (STD). He pivoted his strategy of the prevention of HIV/STD on a model of teaching and training with the underpinnings of educational, moral and spiritual values.

He travelled widely to share his ideas and FIMA's global project on Protecting The Youth Against HIV/STD. It was his HIV/STD program in Tanzania in 2012 which encouraged them to join the FIMA family.

Al-Marhum Dr Abdul Hamid obtained his PhD in microbiology from the United Kingdom in 1982.

He was actively involved in the management of the Islamic Hospital, Amman Jordan. His passion for health education, among others was also channeled through the Al-Afaf Charity Society in Amman, Jordan.

O Allah! We bear witness that our beloved was truly a Murabbi who devoted his life for Your Noble cause.

O Allah! Grant him Your highest ranks amongst the Syuhada and Solihin in Jannatul Firdaus. Ameen

The 38th FIMA Council meeting will be held from December 20-24th, 2021. It's now the second consecutive year that we are unable to hold

physical meetings due to COVID 19 pandemic and its widespread implications and travel constraints.

However our activities and relief work never came to a stand still. Our IMAs did exceptionally well in providing technical support and logistics for the vulnerable groups especially medical personnel. IMAs also played a pivotal role in extending much needed advisory support to Governments and institutions.

FIMA life savers again met a huge success this year with a record number of countries and mosques/Islamic centres participating with great zeal and enthusiasm. The role of BIMA (British Islamic Medical Association) needs a praiseworthy mention.

Last but not the least, my session/tenure as President FIMA is approaching term. I feel honoured to have worked with legends, icons and great workers of this esteemed organisation. If some objectives were achieved, it was just due to blessings of Allah SWT. Please forgive any shortcomings. Remember me and FIMA EXCO in your prayers.

Walaikum Salam
Prof. Dr. M. Ihsan Karaman
President, FIMA
