It was in July 2012 along Kigoma and Bukoba Streets in Ilala municipality where this noble idea of having women for women health center gained its momentum. The Sunshine Muslim Volunteers

(SMV), the organisation owning the Center was able to mobilize funds from the community to open the health center, one of its kind in the country. SMV is hopeful to collect a sizeable amount as donation for this project. FIMA Executive committee has approved a seed money to start the project.
