WORKSHOP ON ROLE OF WOMEN IN MEDICAL COMMUNITY HELD AT MEDICAL COLLEGE OF ISLAMIC UNIVERSITY OF GAZZA

A one day workshop was held under the auspices of Medical College of Islamic University of Gaza on the role of Women in Medical community. Prof Dr Fadel Naeem, Dean of the Medical faculty was the coordinator.

The empowerment and inclusion of women in the medical profession are vital for building a diverse and equitable healthcare system. To recognize the importance of addressing women's role in the medical community, emphasizing the significance of women's participation and leadership in the medical field, highlighting the contributions of women, and having conversations about the unique work-life balance of women in medicine, the "Woman and Their Role in the Medical Community" workshop was organized by 4th year female medical students. This report aims to provide an overview of the workshop, its objectives, key discussions, outcomes, and the significance of 4th year female medical students successfully accomplishing such a workshop.

Workshop Objectives

The workshop aimed to:

- Highlight the valuable contributions and perspectives that women bring to healthcare.
- Foster dialogue on what equality and inclusivity means in an Islamic community and the role of women in shaping the medical profession.
- Inspire and motivate the next generation of female medical professionals.
- Provides unique and valuable insight into the challenges, accomplishments, and breakthroughs of women who paved the way for future generations of female doctors.
- Provide practical guidance, strategies, and resources from senior female health professionals to support future female medical professionals.
- Create a platform for networking, mentorship, and collaboration among participants.

Workshop Overview

The workshop spanned a full day, featuring a diverse range of activities, including keynote speeches, panel discussions, interactive Q&A sessions,

presentations, and networking opportunities. Participants consisted of medical students, practicing physicians, healthcare administrators, and prominent female figures from various healthcare fields.

Key Discussions

The workshop aimed to address important topics such as women leadership, equality, perceptions, experiences, accomplishments, work-life balance, and the advantages of having female doctors in the medical staff. The following sections provide a summary of the key discussions held for each topic.

Women Leadership and Decision Making in Health Care

During this discussion, participants explored the importance of women in leadership positions within the healthcare system. The conversation focused on the unique perspectives and skills that women bring to decision-making processes, emphasizing the need for diverse leadership to address complex healthcare challenges.

Women and Their Role in the Medical Community

This discussion centered on the integral role of women in the medical community. Participants highlighted the contributions of women in patient care, research, teaching, and community health. They addressed the challenges faced by women in terms of career progression, work-life balance, and gender biases. The discussion emphasized the importance of recognizing and valuing the diverse roles and experiences of women in medicine and creating equal opportunities for professional growth.

Equality in the Workplace and Male Doctor's Perception of Female Doctors' Role

Participants engaged in a dialogue surrounding workplace equality and the perceptions of male doctors towards their female counterparts. The discussion highlighted the need to address gender biases and what gender equality looks like in healthcare settings. Participants also discussed the importance of male allies in advocating for gender equality and challenging preconceived notions about female

doctors' capabilities.

The Experience of the First Female Surgeon in Their Country

This discussion focused on sharing and learning from the experiences of the first female surgeon in the participants' country. The conversation explored the unique challenges faced by the first female surgeon, the strategies employed to overcome them, and the impact they have had on inspiring future generations. The discussion emphasized the importance of role models and the significance of breaking gender barriers in traditionally male-dominated specialties.

Presentation of Real-Life Accomplishments by Female Doctors

This presentation highlighted the remarkable achievements of female doctors in various fields of medicine. Participants shared inspiring stories of female doctors who have made significant contributions to patient care, research, advocacy, and leadership roles. The discussion aimed to celebrate and recognize the accomplishments of these women, inspiring and empowering

participants to strive for excellence in their respective fields.

Balancing Personal and Work Duties

Participants engaged in a conversation on the challenges of balancing personal and work duties faced by female medical professionals. Strategies for achieving a work-life balance were discussed, including setting boundaries, seeking support systems, and prioritizing self-care. Participants shared personal experiences and practical tips, fostering a supportive environment and encouraging female medical students to prioritize their deen (faith), well-being, and duties as Muslim wives and mothers alongside their professional responsibilities.

Advantages of Having a Female Doctor in the Medical Staff

The discussion centered on the unique advantages of having female doctors in the medical staff. Participants highlighted the ability of female doctors to provide empathetic and patient-centered care, contribute diverse perspectives, and address specific healthcare needs of female patients. The conversation

underscored the importance of gender diversity in healthcare teams and the positive impact it has on patient outcomes and overall healthcare quality.

Workshop Significance

The successful organization of this workshop by 4th year female medical students holds significance in several ways:

1. **Leadership Development:** Organizing a workshop requires strong leadership skills, including project management, communication, delegation, and decision-making. By taking on such a responsibility, 4th year female medical students have the opportunity to develop and showcase their leadership abilities. It provides them with a platform to demonstrate their organizational skills, initiative, and ability to mobilize resources effectively.

2. **Professional Networking:** Planning and executing a workshop involves reaching out to experts, speakers, and participants from various sectors of the medical community. Through this process, 4th year female medical students can build a vast network of connections, both within their field of interest and across other related disciplines. Networking with professionals and renowned individuals can open doors to

mentorship, career opportunities, and collaborations, which are essential for personal and professional growth.

3. **Skill Enhancement and Knowledge Sharing:** Organizing a workshop requires extensive research, planning, and coordination. In the process, 4th year female medical students gain valuable experience and develop skills in event management and public speaking. They also have the opportunity to engage with experts in their respective fields and learn from their experiences and expertise. This enhances their knowledge base and exposes them to new ideas and perspectives, contributing to the overall growth and development of the medical community.

4. **Personal and Professional Growth:** Successfully organizing a workshop is a significant achievement for 4th year female medical students, contributing to their personal and professional growth. It demonstrates their ability to take on challenges, work collaboratively, and manage complex projects. This experience also boosts their confidence, builds resilience, and prepares them for future leadership roles in medicine.

In summary, the successful

organization of a conference or workshop by 4th year female medical students has profound significance. It fosters leadership development, facilitates professional networking, enhances skills and knowledge, and contributes to personal and professional growth. It not only benefits the organizers themselves but also leaves a positive impact on the medical community, empowering future generations of female medical professionals.

Conclusion

The workshop on "Women and Their Role in the Medical Community" acted as a catalyst for empowering female medical professionals and equipping future female doctors with mentorship and guidance from accomplished women in the medical field. By highlighting the challenges, celebrating women's contributions, and providing guidance, the workshop aimed to create a more comprehensive, diverse and equitable healthcare system. This report encapsulates an overview of the workshop, with key discussions and the significance of the workshop, to inspire continued efforts toward empowering women and reshaping the medical community for the better.

ISLAMIC MEDICAL ASSOCIATION OF SOUTH AFRICA (IMASA) GEARS UP FOR A MAMMOTH GATHERING IN JOHANNESBURG IN END SEP. 2023

SERVE SYRIA CATARACTS SURGERY MISSION 2023

We're excited to announce that IMANA's dedicated team of volunteer ophthalmologists is en route to a life-changing journey to Jordan! This team of skilled volunteers is ready to perform surgeries that will not only restore vision but also uplift spirits and empower lives. It's more than just an operation; it's a chance for a new beginning!

The team stepping foot in Jordan is filled with compassion and determination to alleviate the burdens of those who have lost their ability to navigate the world around them. Your support is crucial in making this mission a resounding success. Let's work together and be a ray of light in the lives of those facing darkness.

MEDICAL MISSION RECAP

[Medical Mission Recap] ServeSyria's Impact: 1250+ Patients Treated!

We're thrilled to share the highlights of our recent ServeSyria medical mission to Jordan. Our volunteer team provided free treatment to over 1,250 patients. Here's a glimpse:

Compassionate Care: Our team

delivered high-quality, vital healthcare with a healing touch while addressing the patients' concerns.

Collaborative Effort: Grateful to our volunteers, partners, sponsors, and local support.

A Global Impact: Taking steps towards a healthier community.

Thank You: Deep appreciation to our team and local volunteers, all are healthcare heroes.

Together, we made a difference. Let's continue promoting healthcare and well-being for all.

ISLAMIC HOSPITAL WORKSHOP BY AHF

Medical Professionals, Doctors, and Senior Administrative Staff (45+) from Alkhidmat Hospitals have come together for a special 02 days workshop at Alkhidmat Complex, Lahore. This workshop

aims to enhance our healthcare services while upholding Islamic values.

President & Secretary General AKFP, Chairman, General

Secretary & MD AHF, Prof. Dr. Hafiz Ijaz shared their valuable insights regarding implementing Islamic ethics in healthcare system.

BABY IMANA IS GROWING UP QUICKLY

During the weekend, Xhengis Aliu, IMANA's Creative Director, paid a visit to our partners at MAAN in Istanbul, where they discussed the progress of our prenatal program. He also had an opportunity to visit baby Imana and here is an exciting update:

“Baby Imana is growing up quickly and is a picture of health, with captivating blue eyes. She is almost 7 months old and I was taken aback by how much she has grown since I last saw her in the pictures that we got from Istanbul

in February. She is an active little one, crawling and even attempting to stand. Her awareness of her surroundings is remarkable.

Imana has two older sisters who, as proud as they are of their baby sibling, couldn't help but feel a tinge of jealousy. Her parents shared with me that both sisters plan to have a chat with Imana once I'm gone, wondering why Imana gets all the attention now. Nevertheless, her parents assured me that the sisters adore baby Imana and spend every waking

moment playing with her. I was touched when her mother referred to me as "uncle" and expressed that all of us at IMANA are considered uncles and aunts to baby Imana.

Imana is our star and she holds a special place in our hearts. It's heartwarming to witness her growth and development and we can't wait to see her again!”

**"NON-COMMUNICABLE DISEASES (NCD)
IN THE MUSLIM WORLD"**

ABOUT MALAYSIA

The country of Malaysia is two separate areas of land known as Peninsular Malaysia and East Malaysia. The two regions are separated by the South China Sea by about 400 miles. Malaysia is a federal constitutional monarchy that consists of 13 states and three federal territories, which include the capital city region of Kuala Lumpur, the administrative capital of Putrajaya, and the island of Labuan off the coast of East Malaysia. Malaysia is blanketed by tropical rainforests and has several vast nature reserves and national parks throughout the country. The country also known for its multiple cultural influences, mix of Malay, Chinese, Indian and European.

PROGRAMS

- 40th FIMA Council Meeting : 25th & 26th October 2023
- FIMA / IMAM Annual Scientific Conference : 27th until 29th October 2023
- Dinner hosted by IMAM President : 28th October 2023
- Sightseeing program : 29th October 2023 (evening)

GROUP SIGHTSEEING PROGRAM

Group sightseeing program for the FIMA and International delegates will be held after lunch on the 29th of October 2023. We will bring the group to tour the city of Putrajaya, one of the federal administrative capitals in Malaysia.

- ✓ **THE EIGHT BRIDGES**
The Sri Perdana Bridge boasts Moorish influences whilst the Seri Wawasan Bridge offers a more contemporary design, making it easily one of the most iconic landmarks of Putrajaya. The other notable bridges, namely the Seri Wawasan Bridge, Sri Saujana Bridge and the Seri Gemilang Bridge are popular with photographers, even more so at night when each of them is lit-up, providing a welcome contrast to the city.
- ✓ **THE MAN-MADE LAKE**
The centre piece of Putrajaya remains its vast man-made lake. The Putrajaya Lake measures in at over 650-hectares and was designed as a natural cooling system for the city.

- ✓ **THE ICONIC MOSQUE**

The pink coloured Putra Mosque is perhaps the most recognisable monument in the city. Located at the edge of the Putrajaya Lake the mosque was completed in early September 1999 and utilised Middle Eastern as well as traditional Malay design elements.

- ✓ **THE INTELLIGENT GARDEN CITY**

Putrajaya also houses a number of green initiatives which have made it an intelligent garden city. Along with the Botanical Park, which features landscaped grounds and numerous plant species, there are several parks in the vicinity, which collectively act as a green lung for the city.

The delegates will spend half-day on the evening of 29th October 2023 by touring the Putrajaya city and after Maghrib prayers, the tour will end and those having return flights on the same day will be taken to the International Airport.

REGISTRATION

Online registration for all delegates (including accompanied person/family members) is mandatory.

No need for any prior or online payment.

(The delegates would need to register and made payment to continue to attend the FIMA/IMAM conference at different website which link will be given in the FIMA delegates' registration form.)

REGISTRATION PACKAGES FOR FIMA DELEGATES

- **FIMA Council Meeting**
 - 25th & 26th October 2023
 - Only two (2) official representatives from each IMA will be sponsored by the host to attend this meeting. Kindly contact your local IMA office for confirmation.
 - Other additional delegate fees: USD 250 / pax
 - Inclusive of accommodation and meals

All delegates are required to fill-in the registration form and submit online.

Once you have booked the flights, fill arrival/departure form and submit online.

ORAL & E-POSTER PRESENTATIONS

We welcome abstract submissions and embrace the best of both the digital and physical approach via oral communication and ePoster presentation. The oral communications will be presented via Video-on-Demand (VoD) mode, which will be made available on the ASC2023 website alongside the ePosters. This way, participants will be able to view the presentations at their own convenience. The best of 5 VoD presenters will be invited to present live at the conference.

Participants are welcome to submit abstracts related to ASC 2023 theme, “Non-Communicable Diseases (NCD) in the Muslim World”. Abstract submissions that are non-related to the theme of the conference may also be considered, but priorities will be given to theme related abstracts.

Here are the important dates regarding abstract and presentation submissions:

Abstract open: 27th July 2023

Abstract closed: 1st September 2023

Acceptance announced: 15th September 2023

Submission of oral VoD and e-poster presentations: 25th September 2023

Announcement of 5 oral presentation finalists: 1st October 2023

Abstracts should not exceed 300 words and submitted in structured format given in the template. Each participant is welcome to submit up to three (3) abstracts.

The submission guidelines and template of abstract can be referred in <https://asc.imamalaysia.org/>. Abstracts can be submitted to ascimamalaysia@gmail.com. All participants must REGISTER for the conference before submitting the abstract. Formal acceptance of abstract notification will be emailed to the presenting author.

IMPORTANT NOTE

- ✓ An individual invitation letter will be sent to all registered delegates انشاءالله which may be used for visa purposes.
- ✓ For logistic queries, facilitation and for extra night stay in Islamabad kindly contact.

IMA UGANDA RELIEF AND PARTNERS HOLD CONSECUTIVE EYE CAMPS

Diopta Eye care center, and the Islamic medical association of Uganda, with support from Charity organisation (Helping Hand For relief and development-HHRD, WAMY, International Islamic Charitable organisation - IICO) have conducted several free cataract surgery camps in needy communities in Uganda. Over 600 cataract surgeries have been done since February 2023. Over 2500 have been conducted in the last 3 yrs.

I Dr Abubakar Kalinaki, an

ophthalmologist, Exco - IMA-Uganda and director of Diopta Eye care center have spear headed many Cataract surgery camps around the country.

We are looking forward for more donor support, equipment, funds and capacity building to reach out to many needy blind patients in Uganda and Africa

With Support from WAMY, I with Saudi Ophthalmologists (lead by Dr Samir Almansour) did 250 Cataract surgeries in Jinja city, in

the month of April 2023

The ophthalmologist camp team included.

Dr Abubakar Kalinaki - Uganda.

Dr Samir Almansour - Saudi Arabia.

Dr Saeed Al-Qahtani - Saudi Arabia.

Dr Al Badr Alanazi

The 21st International FIMA Medical Students Camp:

Kuala Lumpur Malaysia

29 July – 3 August 2023G (11–16 Muharram 1445H)

Muslim Medical Professionals: Contemporary Challenges and Solutions

THE MALAYSIAN PRIME MINISTER HONORED THE OFFICE OF THE WORLD ASSEMBLY OF MUSLIM YOUTH

The Malaysian Prime Minister (Dato ' Sri Anwar Ibrahim) honored the Office of the World Assembly of Muslim Youth for its support and efforts to the organization headed by His Excellency, this organization takes care of charitable work and education in the three Federal Territories (Kuala Lumpur, Putrajaya and Labuan).

This honor came during the launch conference of the organization, where its CEO (Tun Abdul Rahman bin Siraj) praised the International Symposium and its development efforts in the Malaysian community and the targeted youth and humanitarian programs it provides.

For his part, the director of the Regional office in Malaysia, A. Majid Badawi: the organization is considered one of the major and main institutions in Malaysia and its membership includes a large group of charitable organizations and institutions. Attending the symposium comes to enhance its status and open promising horizons that contribute to supporting development and its upcoming needs through its programs and aspirations. Badawi also appreciated the efforts of the kingdom of Saudi Arabia government and people in its tireless support and generous giving to many programs and projects that benefit communities and serve humanity.

REMAINING MESSAGE OF THE PRESIDENT

physically and spiritually. Aameen

Alhamdulillah for all His Blessings for we are now in the new Hijri year of 1445. The significance of Hijrah is monumental in the history of Islam and was a turning point in our glorious past. In a Hadith narrated by Ibn Abbas the prophet SAW famously mentioned after the Conquest of Makkah that “There is no Hijra after the Fath (Conquest of Makkah) but only Jihad and sincerity of purpose, when you are asked to set out, you should readily do so. (Sahih Muslim). As individuals and as members of a global Organisation we should be cognizant of the need to always set our intentions right and be ready to strive for Allah's cause when the need arise.

Various IMAs continue to organize important activities in the month of June and July. The British IMA (BIMA) held a hugely successful Annual Convention at the world famous Ettihad stadium in Manchester. The attendees were feted with an array of topics delivered by an spectrum of prominent speakers. It is heartening to see the topics were interspersed with elements of spirituality in the deliberations. The Azad Kashmir branch of PIMA had also successfully organized their Convention recently. An important and unique Workshop was organized by female medical students of the Islamic University of Gaza on the role of women in medical community. The workshop stressed on the important contributions and role of female health care professionals and is a very commendable efforts by the students.

The students have indeed been very active this last

few months and the 21st International Camp for Medical Students had just been successfully held in Selangor Malaysia. I had the pleasure to be in attendance and delivered a lecture exposing the students from 18 countries to the role of FIMA especially its major activities and projects. The students seemed to thoroughly enjoy the camp and will in sha Allah be ambassadors of FIMA when they return back to the respective countries

In the next two months more major conventions will be organized by IMAs, one by IMASA in September and one by IMAM in October. The IMAM Convention will, as you are aware, be in conjunction with FIMA 40th Council and Scientific Meeting. This issue of the Newsletter contains more useful information of the FIMA Council and Scientific Meeting. I sincerely hope that IMAs are gearing up and preparing to attend the meeting

On the Relief front IMAs from Saudi Arabia, Uganda , Nigeria, Malawi and North America have been active organizing camps in Senegal, Uganda and Malawi. May Allah accept all our efforts and may FIMA continue to forge forward with His Blessings. Aameen

Walaikum Salam
